

THE

MEDALLION

Funtub[®]

THE MOST WATER FOR THE MONEY!

ARE YOU TIRED OF LOOKING AT SPAS AND THE ONLY DIFFERENCE YOU SEE IS IN THE COLOR OR THE NUMBER OF JETS? THE MEDALLION FUNTUB[®] IS TRULY UNIQUE. READ ON AND FIND OUT WHY THE MEDALLION FUNTUB[®] MEETS THE DEMANDS OF YOUR LIFESTYLE.

FunTUB®

FunTUB®

Since the time of the ancient Romans, spas have been used for rest and therapy. People are once again discovering the benefits of hot water. Now this ancient method of relaxation can be available to you in your own home with the Medallion FunTub®.

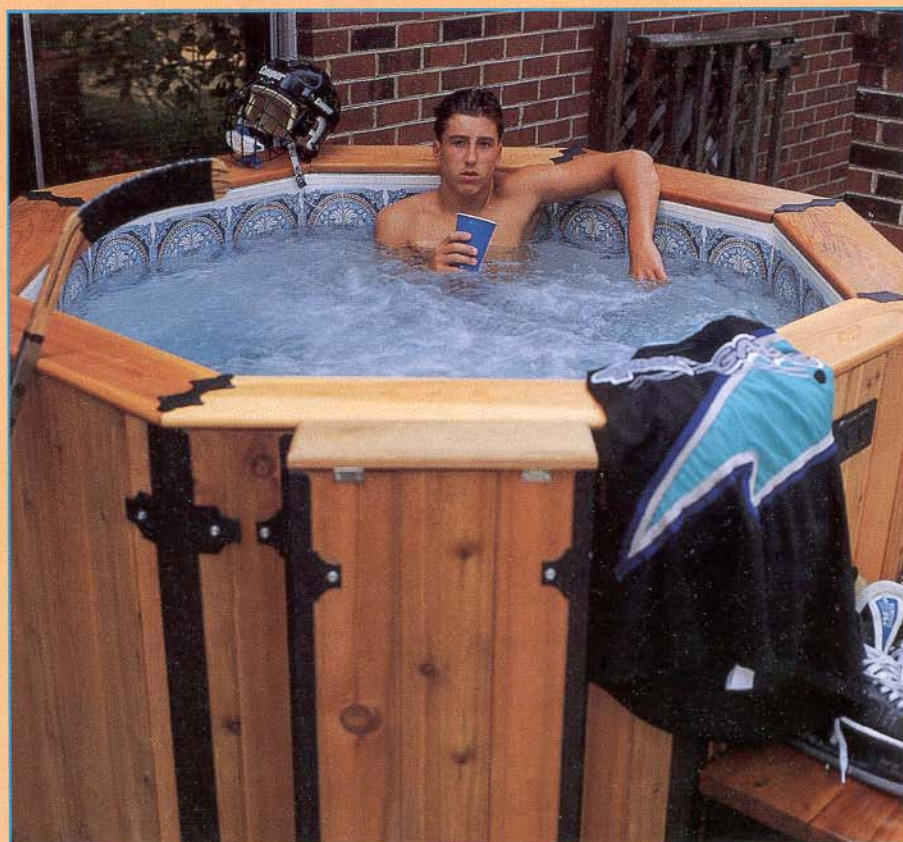

What could be more relaxing? You've had a hard day at work. The stress has been building. You really need to get away but there just isn't enough time. Why not take a mini-vacation at home in your very own Medallion FunTub®? Let your tensions melt away while enjoying the powerful massage of the FunTub's® specially designed turbo-charged jets.

How much room will you have in your FunTub®? Do you find most spas too confining? Not enough room to stretch out in? Now try the FunTub®! With a full 42" depth the FunTub® is deeper

than any acrylic or soft sided type of spa on the market. With sizes available from 5 feet in diameter with 375 gallons of water, to 8 feet with over 1,000 gallons of water, and beyond, the FunTub® offers you more water for the money than any other spa on the market.

What about comfort? The inside of the FunTub® is completely covered with a soft foam padding before the liner is installed. This combination of vinyl and foam padding gives you soft, comfortable seating you will not find in the typical spa. From the coldest days of winter to the hottest days of summer, the FunTub® can provide you with a comfortable way to get away from it all. Turn up the heat and you can keep warm in the FunTub® even with snow all around you. In the summer, just turn the heat down for a cool and refreshing soak.

How about those athletes among us? Are your muscles sore from football, baseball, tennis, a hard work out, or (like the young man in our picture) hockey? The warmth and comfort of a Medallion FunTub® helps to relax those tired and aching muscles.

FunTUB®

FunTUB®

Are there any other spas on the market quite like the FunTub®? In a word, no. The FunTub's® design and construction are unique to the industry. Using the most up to date computer aided design and manufacturing techniques, Medallion has created a spa built to give you years of enjoyment.

What is the FunTub® made of? Unlike any other spa on the market, the FunTub® has an aluminum shell with a vinyl liner. The FunTub® liner is made from 20 mil virgin vinyl. This is the same material that has been used for decades in inground pools. Medallion's revolutionary design allows the FunTub® to be light and easy to move as well as extremely strong and durable. Even the 8' FunTub®, which holds over 1,000 gallons of water, can be picked up and moved by just two people. Another feature of the FunTub® is the skimmer. The FunTub® uses a true through the wall skimmer just like you would find on a swimming pool. Together with the lower suction, this unique system offers one of the most powerful water filtration and jet action combinations available.

Another feature of the FunTub® is the skimmer. The FunTub® uses a true through the wall skimmer just like you would find on a swimming pool. Together with the lower suction, this unique system offers one of the most powerful water filtration and jet action combinations available.

What about energy efficiency and insulation? The FunTub® utilizes a triple layer of protection to prevent the loss of heat. This triple layer protection consists of the liner, the foam padding, and the shell. These three parts combine to make the FunTub® one of the most energy efficient spas on the market. Tests that were performed between the FunTub® and an acrylic spa demonstrated that the FunTub® was able to maintain its temperature longer than the acrylic spa under the same conditions.

Is there a place in your house you always wanted a spa but had no idea how to get one in? Maybe its your basement, or at the end of a narrow hallway, or through a small door. Now, thanks to the FunTub®, you can make that dream come true. The FunTub's® incredible design allows you to bring it in piece by piece and assemble it right on the spot. Also, if you decide to move and take your FunTub® with you, just take it apart, pack it in a box, and you're on your way.

How versatile is the FunTub®? It can be installed with a cabinet on a deck or in a room, partially recessed into a deck or floor, or completely sunken into a deck or floor. It can even be placed entirely in ground and a concrete deck poured around it. The possibilities are endless.

How do FunTub® owners feel about their purchase? In a recent survey conducted of all registered FunTub® owners, they listed all of the reasons you just read for purchasing a FunTub®. When asked if they would recommend the FunTub® to a friend, **100%** said **yes**. We feel that the highest praise any customer can give is their recommendation to a friend.

FOR THE FAMILY

The FunTub[®] is an excellent investment in your family's health and recreation.
What a great way to unwind while spending quality time with your family.

So why wait any longer?

With a Medallion FunTub[®] you will receive superior quality and value backed by a company that has been in business since 1960.

The only way to know the true pleasure of a FunTub[®] is to own one.
