

MEDALLION POOLS FREEDOM

HYBRID

ABOVE GROUND
INGROUND

Your Freedom pool allows for many installation and finishing choices such as placement, color, textures, liner pattern, decking... and don't forget mobility.

Since 1960 Medallion Pools has been an innovative force in the pool and spa industry. Beginning with a vision and desire to turn every back yard into a recreational oasis. Medallion Pools has stood the test of time.

Through hard work and dedication, three generations of family have run Medallion Pools and are still driving the company into the future. Medallion's specialized manufacturing processes and modern technologies allow us to create pools at affordable prices for all families. Medallion Pools understands that "Family" is what pools are all about.

As you read through this brochure, please note your questions and comments as we are more than happy to bring clarity to you and guide you into a special pool or spa that you and your family will enjoy for years to come.

Strength - Your Freedom pool is made of the same high-quality aluminum used in our famous aluminum inground pools. Your Freedom pool is robust, durable, and built to give you and your family many years of enjoyment.

Easy Installation - Due to the simple and unique bolt-together panel design, your Freedom pool is one of the easiest (if not THE easiest) pools to install on the market today. The Freedom pool is a do-it-yourselfer's dream as it can be assembled with common household tools. Our panel system relieves you of the dangers of heavy side wall rolls used by other manufacturers that can be blown around by moderate winds causing installation difficulties and injury.

Placement - Your Freedom pool can be installed entirely above ground, partially inground, or fully inground. This type of flexibility allows installation to occur virtually anywhere you wish.

Options - The options on the Freedom pool are unlimited. You can choose from a variety of sidings and materials available on the market to finish your Freedom pool. The same can be said for the decking options available for the Freedom pool. There are many liner pattern options available for your Freedom pool. These liners are also beaded (the same style used on inground pools) and much easier to install. One of our most impressive features is the liner-over-stair option.

Flexibility - Moving plans rarely ever include packing up the pool for a road trip, but your Freedom pool is designed with that kind of flexibility in mind. If you find you have more space when you get where you are going, you can easily add panels to increase the size of your Freedom pool in order to fit your new situation and needs.

Medallion Swim Pool Company, Inc

840 West Roslyn Road

Colonial Heights, VA 23834

804-526-7665 Fax: 804-526-1200

Email: sales@medallionpools.com

Note: Medallion Swim Pool Company, Inc. tries to associate with the best pool contractors and dealers. Dealers and contractors installing or selling Medallion Pools are independent business people. Medallion Swim Pool Company, Inc. does not assume any responsibility for the installation, service performed, statements, and/or opinions made about our products by these independent contractors and dealers. It is up to individual contractors/dealers to meet all national, state, and local building codes when installing any Medallion pool. Decking, siding, brickwork, and any other forms of finished work and material around the pools shown are for illustrative purposes only and are not a part of the pool package

Important: The Medallion Freedom pool is only designed for swimming and wading. Jumping or diving into a Medallion Freedom pool can cause serious injury or death. Do not jump or dive regardless of whether the pool is installed above ground, partially inground, or fully inground. Only use approved methods to enter, or exit your Freedom pool. It is the homeowner's responsibility to provide and insure all safety signs are properly placed and maintained. The homeowner is responsible for guarding the pool against any unsupervised, unlawful, or unintentional entry. Failure to obey safety and warning signs or follow the rules can result in permanent injury or death.

Design Change: All measurements, drawings, weights, and sizes are approximate. All dimensions for above-ground pools, whether in this brochure or other printed media are approximate. The manufacturer reserves the right to change or modify any product without incurring any liability or obligation to supply or install those changes on items sold in the past, present, or future.
