Note: Medallion Swim Pool Company, Inc. tries to associate with the best independent contractors and dealers. Independent contractors and dealers installing Medallion Products are independent business people and Medallion Swim Pool Company, Inc. does not assume any responsibility for the installation and service performed by these independent contractors or dealers. Decking, siding, brickwork, and other forms of finished work and material around the pool shown are for illustrative purposes only and are not part of the pool package.

Important: Only use approved methods to enter or exit your Medallion Swim Spa. It is the homeowner's responsibility to provide and make sure all safety signs are in the proper location and maintained. It is the homeowner's responsibility to guard the Swim Spa against unsupervised, unauthorized, or unintentional entry. Failure to obey safety and warning signs or follow the rules can cause permanent injury or death.

Design Changes: All measurements, drawings, weights, and sizes are approximate. All dimensions, whether in this brochure or in other printed media are approximate. The manufacturer reserves the right to change or modify any product without incurring any liability or obligation to supply or install those changes on items sold in the past, present, or future.

INDULGE YOURSELF in the affordable luxury of owning a Medallion Ultra II Swim Spa

What about strength? Your Medallion Ultra II Swim Spa is made from the same thickness and high quality 14 gauge galvanized steel that is used in our famous steel inground pool walls. The design is completely self supporting, so no external bracing or bolting it down to the concrete is required. Your Medallion Ultra II Swim Spa is strong, durable, and built to give you and your family many years of enjoyment.

How easy is the installation? With its simple bolt together design, the Medallion Ultra II Swim Spa is one of the easiest (if not the easiest) swim spa to install on the market today. This can save you thousands of dollars on installation. For those of you do-it-yourself types, this swim spa will be a breeze to assemble. There is no need for a crane or other special lifting equipment. The Medallion Ultra II Swim Spa can be assembled with ordinary household tools in a matter of hours, not days.

Where can I install it? The answer is simple... virtually anywhere you want! One of the keys to the success of the Medallion Ultra II Swim Spa is its ability to be installed virtually anywhere. The Medallion Ultra II Swim Spa can be installed on a slab, directly on the ground, partially inground, or completely inground. Because of its bolt together design you can even carry the parts into your basement and install it there.

How do I get in and out? The Medallion Ultra II Swim Spa comes standard with a 3-step stainless steel deck ladder complete with deck flanges. You can also purchase the optional liner corner stair for an even easier entry and exit as well as a more elegant look.

What colors are available for the Ultra II Swim Spa? The Medallion Ultra II Swim Spa is only limited to your imagination. If your installation is totally or partially above ground you can use any exterior grade siding material on the market. T1-11, vinyl siding, lattice, the list goes on and on. You can even have your swim spa match your home.

What sizes are available? The Medallion Ultra II Swim Spa is available in six sizes: 7'x10', 7'x12', 7'x14', 8'x10', 8'x12', and 8'x14'. All Medallion Ultra II Swim Spas come standard with full 42" walls. Optional deep end depths of up to 5' are available. See your Medallion representative for complete details.

What decking options are available for the Ultra II Swim Spa? If you install your Medallion Ultra II Swim Spa on ground or partially inground, you can simply build a deck around all or part of it using any standard decking material. If you install your Medallion swim spa completely inground you can use concrete, brick, wood, or even stamped or patterned concrete. The options and styles are limited only by your imagination.

What about the liner? Your Medallion Ultra II Swim Spa comes standard with a beautiful 20 mil tile and print liner. The liner Medallion uses has been proven for decades in the inground pool industry. The Medallion Ultra II Swim Spa uses a beaded liner just like an inground pool which makes the liner incredibly easy to install. You may choose from a wide variety of available patterns. See your Medallion representative for a complete list of patterns that are currently available.

What about filtration and heating? The Medallion Ultra II Swim Spa comes with a skim-filter and a 2-speed pump for filtration. It also comes standard with a high quality electronic control box with a built in electric heater and digital readout.

What am I swimming against? Depending on the package you purchase, your Medallion Ultra II Swim Spa will come standard with a set of Swim Cords for resistance swimming or a Badustream 4hp swim current generator.

What other options are available? You can add several optional items including lights, additional return jets, bench seating (pictured above), corner stair (pictured below), and an insulated cover just to name a few. See your Medallion representative for a complete list and pricing.

What about quality? The Medallion Ultra II Swim Spa is manufactured with top quality materials that have been proven in the inground pool industry for decades. The structure of the Ultra II Swim Spa is backed by a 10 year, limited, pro-rated warranty.*
